• PROFILE

Final-year Computer Science Engineering student with a strong interest in Python development, software engineering, and data-driven applications. Skilled in Python, SQL, MySQL, HTML, CSS, and JavaScript, with a strong foundation in programming, data processing, problem-solving, and analytical thinking. Familiar with developing practical solutions using Python and working with structured data and databases. Interested in building scalable software applications while applying both programming and data analysis skills.

• SKILLS

- **Programming:** Python, SQL
- **Database:** MySQL
- **Data Analysis:** Microsoft Excel, Power BI
- **Web Technology:** HTML, CSS, JavaScript
- **Development Tools:** Git, GitHub, VS Code
- **Design Tools:** Canva, Figma

• PROJECTS

Personal Expense & Financial Analysis System

Python | SQL | Data Analysis | Data Visualization

- Developed a Python-based expense management system to record and categorize personal spending.
- Implemented monthly expense analysis to identify spending patterns and category-wise expenditure.
- Generated charts and financial insights to support better understanding of personal spending behavior.

Customer Complaint Analysis System

Python | SQL | Power BI | Data Analysis

- Developed a complaint analysis system to clean, process, and analyze customer complaint data.
- Used Python and SQL to identify complaint patterns across products, states, and companies.
- Created an interactive Power BI dashboard to visualize complaint trends and generate actionable insights.

Digital Notice Board

Python | HTML | CSS | JavaScript | MySQL

- Developed a centralized digital notice board for SSM College of Engineering to replace scattered physical notices and outdated systems.
- Implemented an admin panel for authorized users to add, edit, and delete notices with department-specific targeting.
- Designed categorized information flow for management notices, department notices, and examination schedules.
- Implemented database-backed notice management with support for notice content and optional poster/audio files.
- Secured Second Prize for the project at the college-level project presentation.

• EDUCATION

Bachelor of Engineering

SSM College of Engineering

Sept 2023 – Present

Major in Computer Science Engineering | CGPA: 7.8

School Education

Government Higher Secondary School

Jun 2016 – March 2022

Percentage: 64%

• CERTIFICATION

- Python Practice Codes – Great Learning Academy
- Intra-College Paper Presentation – VisionTechAZ – Topic: Digital Notice Board
